## WORK EXPERIENCE | PROJECTS

### ACCOUNT MANAGER

Sanctum Group | Dec 2020 - Feb 2023

- Acted as a middleman between the team and clients, addressing customer and employee concerns, organizing order information, whilst assisting in employee recruitment and compensation, ensuring efficient communication and workflow.

### STUDENT | Avion School

Jan 2023 - Feb 2023

Banking-Budget Application | [Github Link](#)

- Created a simple and user-friendly banking app using React.js
- Implemented features such as login/sign-up, deposit/withdraw funds, send money, budget/expenses tracker with CRUD functionality, and real-time balance updates
- Saved user info (balance and expenses list) in local storage for easy access.
- Provided a clear and efficient interface for managing finances and tracking budget.

### STUDENT | Avion School

Jan 2023

Tic-Tac-Toe | [Github Link](#)

- Developed a classic Tic Tac Toe game using vanilla JavaScript that allows players to mark their moves and displays the winner.
- Built with features such as intuitive UI, winning combination checking mechanism, and the functionality to restart and navigate between previous moves.

### STUDENT | Avion School

Nov 2022 - Dec 2022

Momentum Application | [Github Link](#)

- Created a momentum app inspired by the momentum extension for Google Chrome - built using HTML, CSS, Bootstrap, and Vanilla JS.
- Added a todo list feature with CRUD operations integrated.
- Added weather and quotes sections with API integration.

### STUDENT | Zuitt - Coding Bootcamp Philippines

May 2022 - July 2022

Sneaker E-Commerce Application | [Github Link](#)

- Built a full-stack e-commerce web application using the MERN stack.
- Implemented user authentication, sneaker catalog, shopping cart, and admin functionalities (add/remove/update sneakers, view user cart total).
- Utilized CSS and React-Bootstrap for front-end customization.
- Tested server API using Postman and hosted the database on MongoDB Atlas.
- Deployed the app on Render for the back-end and Vercel for the front-end.
